ELECTRIFYING

Smooth. Effortless. All-Electric.
The **DENZA D9** offers two electric powertrains, FWD and AWD. Both utilise a strong and efficient permanent magnet synchronous motor on the front axle developing a **230kW/360Nm** for punchy performance. The AWD variant adds a motor to the rear axle for a combined **275kW/470Nm** for a brisk 0-100km/h sprint of just 6.9 seconds.

DiSUS-C

The **DENZA D9 AWD** comes equipped with DiSus-C, a full body control system that inhibits lift, suppresses pitch and mitigates lateral body roll. DiSus-C provides a responsive driving experience that provides unrivalled confidence and comfort.

CELL-TO-BODY

The **DENZA D9**'s Cell-to-Body (CTB) design integrates the battery into the body of the vehicle, forming a strong sandwich-like structure improving torsional rigidity by **over 24,000Nm/°**. The Blade Battery is more than just an energy source, it's a critical component in the structural safety of the vehicle if involved in a collision.

FIRST CLASS EVERY TRIP

Nappa leather* upholstery with ventilation and massaging* function for the first two rows. The DENZA D9 was crafted to ensconce you in first-class luxury every day, no boarding pass required.

***Front row massage and Nappa leather exclusive to D9 AWD model.**

SURRENDER TO SERENITY

The DENZA D9 is designed to take the effort and stress out of your life. From wide opening power-sliding rear doors with soft close closing, meticulous attention to detail was paid to noise absorption, and even a fridge and hotbox to keep your drinks or snacks the perfect temperature. The D9 turns every drive into quiet indulgence.

SOUND LIKE YOU NEVER FELT

Developed in conjunction with Danish luxury audio specialist, DYNAUDIO, the DENZA D9's premium sound system is nothing short of extraordinary. The 420W system utilises 14 carefully-placed speakers, ensuring you get the highest quality sound without any distortion.
