Driven by DETAILED SAFETY FEATURES

Intelligent Body Control System

The DiSus-C smart damping body control system maintains the vehicle's agility, whether during high-speed cornering or full-throttle acceleration, ensuring comfort for the driver and all passengers in most driving scenarios.

Complete Protection

With 9 airbags strategically positioned in the front, middle, and third rows — including side curtain airbags spanning all three rows and a central airbag — the DENZA D9 places the utmost emphasis on safety, providing the assurance and peace of mind to relax and enjoy the journey.

Uncompromised Safety

High-strength steel plates, making up to 75% of the vehicle, are used throughout. The double anti-collision beam design, aluminium alloy main anti-collision beam, thermoformed rear anti-collision beam, four-door safety bars, and composite body structure ensure maximum protection for everyone.
